Fiume Problem Solved; D'Annunzio Planning To Leave by Airplane

Warrior-Poet, Shorn of Power, Declares It Is Not Worth While Dying for Italy.

AMNESTY IS EXPECTED FOR D'ANNUNZIO'S MEN

Legionnaires to Be Disbanded—Agreement Is Practically Concluded, According to Latest Dispatches From Rome.

Rome, December 29.—D'Annunzio has issued a proclamation declaring it is not worth while dying for Italy. He said he was leaving Fiume by airplane.

This was semi-officially announced here this afternoon, together with the announcement that the Fiume agreement may be regarded as concluded.

Settlement of the Fiume question based on recognition of the treaty of Rapallo, disbandment of d'Annunzio's legionnaires and general amnesty, is expected following receipt of late advice from the blockaded area. The suspension of hostilities previously ordered has been prolonged.

Negotiations for surrender are proceeding with the municipal council of Fiume, to which d'Annunzio has ceded his powers.

D'ANNUNZIO SURRENDERS POWERS TO COUNCIL

Rome, December 28.—(By the Associated Press)—Gabriele d'Annunzio early today surrendered all his powers to the Fiume communal council.

General Caviglia, commander of the regular Italian forces, will arrange the conditions of peace with a delegation of the council today.

MILITARY OPERATIONS ARE SUSPENDED

Rome, December 29.—(By the Associated Press)—A conference for the purpose of arranging the final cessation of hostilities between the regular Italian forces of General Caviglia and d'Annunzio's legionnaires was set for this morning. Meanwhile, all military operations have been suspended.

D'ANNUNZIO EXPECTED TO SIGN TERMS.

Rome, December 29.—Fighting at Fiume between Italian government and d'Annunzio's legionnaires has been suspended for a time at least, it was reported here today.

A dispatch from Rome stated that delegates appointed by the mayor of Fiume met General Ferrario, in direct command of the Italian regulars, at Abbazia yesterday, and agreed to the terms laid down for the capitulation of the city. D'Annunzio was expected to sign them this morning and a truce was arranged until noon today.

The Duke of Aosta, cousin of King Victor Emmanuel, was said to be on his way to take part in the negotiations.

D'ANNUNZIO'S MEN FIRE POWDER MAGAZINES.

Rome, December 28.—D'Annunzio's legionnaires at Fiume set fire to a powder magazine in the Recena valley, southeast of the city, last night, according to a report from Abbazia. The explosion set fire to the woods surrounding Fiume and great clouds of black smoke rolled down over the city. In some quarters the belief was expressed that a petroleum refinery near the powder magazine had also been set on fire.

Italian regular troops surrounding Fiume continued to advance west and north of the city yesterday, while on the eastern side the situation was unchanged. The fiercest fighting occurred west of Fiume, where Alpini advancing from Castra reached the public gardens. When they had forced their way that far they found all the houses surrounding the gardens had been transformed into machine gun nests, from which a terrific fire was poured upon them.

EXPORT BANK'S CAPITAL TO GO TO TEN MILLION

Secretaries of Bankers' Associations of Twelve States Meet in New Orleans to Increase Subscriptions to Stock.

3 ADDITIONAL STATES MAKE RAISE CERTAIN

North Carolina Promises to Reach Its Quota. Oklahoma and Virginia Financiers Soon to Fall in Line.

New Orleans, December 29.—Secretaries of bankers' associations of twelve states met here today for the purpose of perfecting plans to increase the capital stock of the Federal International Banking company from \$7,000,000 to \$10,000,000.

Reports made today indicate that the desired amount will be subscribed before the organization meeting here on January 7.

When the organization and campaign committees met here on December 17 only nine states were represented with reports, but these names oversubscribed the \$6,000,000 mark by \$1,000,000. Since that time subscriptions have been received from North Carolina that the quota assigned to that state will be subscribed.

An executive meeting of the Oklahoma Bankers' association will meet Thursday to take action on the matter. Nothing definite has been heard from Virginia, but the secretaries here today were confident that Virginia banks will fall in line.

Planning to Jump Claims.

Secretary Tumulty, during the senator's absence and upon return of President Wilson from his daily automobile ride, went to the white house for a conference with the president. Senator Ashurst shortly after 6 o'clock visited the executive offices for the fourth time and announced after his visit that he had procured an answer by telephone within an hour after Mr. Tumulty had talked with Secretary of the Interior Payne at Pinehurst, North Carolina.

Senator Ashurst at 7:30 o'clock had received no word from the executive offices and announced to

"TIN PLATE" PRINCE EXPECTED TO WED GREEK PRINCESS

New York, December 29.—William B. Leeds, 18-year-old son of Prince Anastasis, of Greece, who may marry Princess Olga, niece of King Constantine, was left about \$7,000,000 in 1908, upon the death of his father, William Bateman Leeds, American "tin plate" king.

Young Leeds, son of the elder keeper of East Point, was fatally injured early Wednesday night when he was run over at Forrest Avenue and Main street by a car in East Point, both legs being severed above the knees and his head being bruised.

Officials of the Georgia Railway and Power company stated late Wednesday night that no definite details of the accident had been reported, but that they understood that Bailey had been struck by an automobile and thrown upon the tracks.

The injured man was rushed to the Georgia Baptist hospital for medical treatment, arriving at about 8 o'clock and succumbing to his injuries three hours later.

The body was removed to the chapel of Donahoo & Bassmore, where it is being held pending funeral arrangements.

Relatives of the dead man who visited the chapel were prostrated with grief and were unable to give details of the accident.

According to reports received from East Point police, it is believed that Bailey was struck by an automobile and was thrown on to the car tracks, where he lay in unconscious condition until the trolley car passed over his legs, severing them both.

The motorman did not realize that his car had run over anyone, the unconscious body being discovered by Bailey's business partner just after the trolley had passed.

It was reported that Bailey's partner stated that he heard a woman scream as the car passed, and he rushed to the street to ascertain the cause of the disturbance. He found the body of his friend, it is said, but saw no traces of the woman, who had disappeared.

The greatest reduction will be in wholesale permits under Mr. Kramer's program, but other dealers entitled to operate under the Volstead act will be considerably affected. The commissioner said it was his intention to refuse to re-issue between 50 and 75 per cent of the wholesale licenses now in effect.

The enforcement staff has been engaged for several months in studying the records of the 77,000 odd permit holders to ascertain who have committed overt acts under the prohibition statutes with the view of eliminating them from the list of those who may handle intoxicants next year.

SENATOR ASHURST TRAILS MINE BILL INTO WHITE HOUSE

"Siege" of Several Hours Gains Him Little Information as to Status of Measure.

Washington, December 29.—Pressed by his constituents for information as to the fate of the mine assessment bill sent by congress to the president December 21, Senator Ashurst, democrat, Arizona, today spent several hours trailing the measure through the executive offices, the interior department and even the white house itself, and found out nothing beyond the fact that the president had not as yet signed the bill.

The senator from Arizona, bent on his mission of obtaining information, walked into the white house executive offices shortly after 1 o'clock and found Secretary Tumulty absent. Being told that the bill about which he was seeking information was with the president, and having pressed white house attaches vainly to announce to the president his desire for a conference, Senator Ashurst walked directly up the path leading to the residential section of the white house, declaring that "as an American citizen and United States senator," he proposed, to obtain this information.

Couldn't See The President.

At the white house door the senator was met by an attendant who led him to a seat without any intent to seek Mrs. Wilson. The president had just finished his luncheon and had retired to his study on the second floor. Mrs. Wilson directed the attendant to tell the senator he would have to take up his business first with Secretary Tumulty, as the bill had not been received by the president, whereupon Senator Ashurst retired again to the executive offices in pursuit of the bill.

After waiting for Secretary Tumulty for a short while, Senator Ashurst left the executive offices for the interior department, to which bills relating to mining are generally referred by the president. He had gone only a couple of blocks when the executive offices received word that Mr. Tumulty was returning, and a messenger was dispatched after the senator. Mr. Ashurst retraced his steps and, upon Mr. Tumulty's arrival, requested a frank and manly statement as to the status of the bill. He was informed by the secretary that the bill had not been received by the president, whereupon Senator Ashurst retired again to the executive offices in pursuit of the bill.

"Therefore," he continued, "if other nations have the same attitude, it seems to me unreasonable not to believe that all would be willing to prove it by consenting to limit armaments."

"As we contemplate the causes of war and realize its horrors, every right thinking man and woman must feel like demanding that some steps be taken to prevent its recurrence," he continued. An important step would be to curtail expenditures for the maintenance of armies and navies. No one nation can reduce unless all do." Pershing said.

Pershing declared America was not an aggressive nation and that she wanted no territories.

"Therefore," he continued, "if other nations have the same attitude, it seems to me unreasonable not to believe that all would be willing to prove it by consenting to limit armaments."

"Same old thing," said Mr. Churchill, who runs another quick lunch joint and jazz bakery a little further up Broadway. "Dancing and confetti and all that sort of thing. Reservations \$10. Expect capacity business."

"Expect any one to bring hooch?" he asked.

"We can't help it if they do, can we?" he asked in an aggrieved voice.

"Worried about prohibition enforcement officers?" he continued.

"I'm worried about trying to sell a few ham-and-eggs," he assured us.

"I can't keep track of what the customers use to wash it down with."

White hip-hooch will be the order of the evening in the gilded palaces, still those who have no pockets and no flasks to put in them if they did have them will not need to go dry. PERSHING PLEADS FOR DISARMING OF ALL NATIONS

America's Greatest Warrior Declares Step Is Necessary Unless Civilization Has Reached a Point of Self-Destruction.

WAR BUDGET ALARMS COMMANDER-IN-CHIEF

Declares That Time Has Come Among Enlightened People When Powers Must Agree on Limiting Their Forces.

BY FRED S. FERGUSON.

United News Staff Correspondent.

New York, December 29.—General John J. Pershing, commander-in-chief of the A. E. F., America's only living full general and her outstanding fighting man, brought 1,000 men and women to their feet cheering at the Commodore hotel Wednesday night when he strongly urged steps toward disarmament through curtailment of expenditures for the maintenance of armies and navies. No one nation can reduce unless all do.

Pershing declared America was not an aggressive nation and that she wanted no territories.

"Therefore," he continued, "if other nations have the same attitude, it seems to me unreasonable not to believe that all would be willing to prove it by consenting to limit armaments."

"Same old thing," said Mr. Churchill, who runs another quick lunch joint and jazz bakery a little further up Broadway. "Dancing and confetti and all that sort of thing. Reservations \$10. Expect capacity business."

GRADY BAILEY SUCCUMBS AT LOCAL HOSPITAL, AFTER BOTH LEGS WERE SEVERED BY PASSING STREET CAR.

Grady Bailey succumbed at Local Hospital, After Both Legs Were Severed by Passing Street Car.

Young Leeds, son of the elder keeper of East Point, was fatally injured early Wednesday night when he was run over at Forrest Avenue and Main street by a car in East Point, both legs being severed above the knees and his head being bruised.

Officials of the Georgia Railway and Power company stated late Wednesday night that no definite details of the accident had been reported, but that they understood that Bailey had been struck by an automobile and thrown upon the tracks.

The injured man was rushed to the Georgia Baptist hospital for medical treatment, arriving at about 8 o'clock and succumbing to his injuries three hours later.

The body was removed to the chapel of Donahoo & Bassmore, where it is being held pending funeral arrangements.

Relatives of the dead man who visited the chapel were prostrated with grief and were unable to give details of the accident.

According to reports received from East Point police, it is believed that Bailey was struck by an automobile and was thrown on to the car tracks, where he lay in unconscious condition until the trolley car passed over his legs, severing them both.

The motorman did not realize that his car had run over anyone, the unconscious body being discovered by Bailey's business partner just after the trolley had passed.

It was reported that Bailey's partner stated that he heard a woman scream as the car passed, and he rushed to the street to ascertain the cause of the disturbance. He found the body of his friend, it is said, but saw no traces of the woman, who had disappeared.

<p

the polls. He cited other instances of alleged discrimination in Florida and said they had been reported to the department of justice.

Southern members of the committee asked the witnesses why they had not made investigations into the situations in the northern states also instead of confining themselves to the south.

The hearings will be resumed tomorrow.

Walter F. White, assistant secretary of the association, presented what he said were affidavits from 943 negroes in Jacksonville, Fla., who alleged they were deprived of the right to vote in the November elections. He also said affidavits were being gathered from 4,000 other negroes of that city who stood in line all day election day without getting to vote, although all were qualified.

On Saturday night preceding the election, he charged that 1,000 members of the Ku Klux Klan paraded the streets of Jacksonville in an effort to frighten the negroes into keeping away from the polls.

He alleged that a man was killed in an election not in Orange county, Florida, was qualified voter.

The allegations as to the Jacksonville occurrence, had been turned over to the department of justice, he said.

In the Jacksonville cases, he said, "every possible" attempt was made by the election officials to keep the negroes from voting. He also told the committee certain information had been given him by the son of a man who was a member of the cabinet of General Grant, who, he added, told him his life would be endangered if his name became known.

"Why didn't you investigate and see if any white people were not allowed to vote?" asked Representative Larsen, democrat, Georgia.

The witness said a letter signed by the grand master of the Ku Klux Klan¹ of Florida, had been sent to a voter in an attempt to intimidate him.

William Pickens, a negro, of New York, field secretary of the association, said he was in Columbia, S. C., and found that negro women were being discriminated against in

the matter of registration. Thirty-two of them, he said, had sworn out warrants against the registration officials for such discrimination. Some of them, he said, stood in line from 8 a. m. to 8 p. m., and were not able to get registered. Teachers, he asserted, were denied the right of registration under the educational clause of the state constitution.

The election laws of South Carolina and other southern states, he said, were made "square" with the federal constitution, but they were administered so as to keep negroes from voting. He said he was a native of South Carolina.

Hearsay Evidence.

"Do you know any white people who were refused the right to register?" asked Representative Larsen. The witness replied "I didn't know," but said one white man had been denied the right to register. He was a republican. Pressed for the name of the man and the place he finally admitted he was hearay.

Representative Mulligan, democrat, Missouri, asked the witness if he had seen any letter circulated in which negroes were urged to go women voting. He replied he had seen one written by the president of Greensboro college, but did not know who had suggested it being circulated by the Association for the Advancement of Colored People.

"Do you know if there was a woman crowding around the polls in Missouri on election day and keeping them white men from voting?" asked Mulligan. Mulligan continued. The witness replied he "didn't know."

He said he registered in Tallassee, Ala., in 1905, while teaching school after the registration officials had seen a white judge no longer in office. The official, he said, told them they registered what negroes they wanted and that it was not necessary for them to go out from under a tree and blow about it.

Charges Against Georgia.

Answering the charges against Georgia, Representative Larsen said in his home town 1,365 negroes were registered. Pickens said he did not know if negroes voted in Georgia in the last election, but contended they were discriminated against there.

He responded to a question from Representative Brinson, democrat, North Carolina, in that state negroes in many of the other southern states.

Representative Aswell, democrat, Louisiana, asked the committee to have federal supervision of elections by extension of the Gary act.

More representatives of colored people will be heard when the committee resumes the hearing tomorrow.

George Murray, an attorney, of Washington, asked the committee to have federal supervision of elections by extension of the Gary act.

More representatives of colored people will be heard when the committee resumes the hearing tomorrow.

Sioux Chief Visitor to Atlanta

assistants each lost the usual \$1,000 allowance for traveling expenses.

The expenses of the postmaster general's office, however, were increased \$488,475. The office allowances of the first, second, third and fourth assistants were reduced by approximately \$1,000,000.

Muscle Shoals Plant.

Sharp differences of opinion developed among the members of the house appropriations committee when the subcommittee reported the sundry civil appropriation bill without an appropriation for the completion of the dam and other power plant in Alabama.

Representative Byrnes, democrat, Tennessee, objected to the subcommittee's action in eliminating the \$10,000,000 appropriation recommended for completion of the dam by the chief of army engineers. He asked that it be incorporated by the whole committee, but his motion was voted down. Another request for \$4,000,000 for the same purpose also was defeated.

A fight will be made on the floor of the house to include the \$10,000,000 appropriation but little hope is felt that it will be successful.

An effort to include an appropriation for the inland waterways project in the lower Mississippi valley was made. It was lost, the whole committee then reporting the bill practically without change, in the form in which it was received from the Senate.

The sundry civil bill, carrying a total of \$58,611,292, or \$400,914,192 less than was asked by the government departments, was reported today by the house appropriations committee. It was the first of the big supply measures for the next fiscal year to be completed and its total was \$52,237,514 less than the amount appropriated for similar purposes this year.

Pre-War Bills Sought.

Indicating a desire to put government expenditures on a pre-war basis, the committee, first taking care of men disabled by war, set aside only \$16,611,292 for actual sundry civil expenses of the government, which was within \$4,000,000 of the total amount appropriated in 1916.

The largest single reduction, \$147,000, applies to the shipping board emergency fleet corporation, the bill providing that the organization shall be supported entirely out of various sources of income.

Request from the department of justice for \$300,000 for enforcement of the national prohibition act was eliminated entirely. The sum of \$10,000 was appropriated, however, for suppressing liquor traffic in Alaska.

Other principal slashes in the amount asked by the government departments included:

Post office, \$7,000,000; vocational education, \$15,000,000; military posts, \$6,942,115; national cemeteries, \$19,000,000; flood control, Mississippi river, \$3,000,000; nitrate plants, \$10,000,000; Panama canal, \$7,187,255; immigration service, \$2,567,589; employment service, \$1,334,931; reclamation service, \$5,809,000; public health service, \$1,000,000; armories and arsenals, \$6,238,000; public buildings, \$6,789,400; bureau of mines, \$2,112,000, and department of justice, \$1,303,304.

Military Compensation.

The bill includes \$22,000,000 on account of military and naval compensation for death or disability of soldiers, sailors and marines, medical care and hospital treatment of beneficiaries of the bureau of

war risk insurance, and vocational rehabilitation of soldiers, sailors and marines, all growing out of the war world.

With this amount deducted from the amount recommended in the bill, \$100,411,292, the difference will be used for other purposes, as compared with \$126,922,750, the total carried by the sundry civil act for the fiscal year 1916.

The principal increases over this year's appropriations were \$11,803,000 for the reclamation service; \$100,411,292 for flood control; \$1,000,000 for light houses and beacons; and \$516,000 for the government printing office.

The appropriations proposed on account of medical and hospital service for war risk patients was \$33,000,000, or \$13,000,000 less than the shipping board estimate of \$49,000. For the construction of military posts only \$12,000,000 was allowed against the \$16,611,292 asked. The total recommended was to be spent in the Hawaiian Islands, no appropriation was proposed for Panama canal, and the continental United States and Alaska.

The committee cut out entirely \$10,000,000 asked for the construction of nitrate plants in Alabama.

Admitting that he had been in congress off and on longer than other members, Mr. Cannon declared he was not the veteran in continuous service.

"Speaker Gillett and Mr. Clark were approaching the polls last year," he said, "and Jim Mann at 16, was trying to decide whether he would be a farmer or a lawyer. Rainey and Mondell were beginning to figure life in percentages, and the ambitions of Claude Kitchin and Nick Longworth, at the age of 3, were centered about their first pants."

Looking Forward

ITH the stabilizing of merchandise values and the undoubted purchasing power of the consumer, we enter a new year confident that there will be business for the merchant who is prepared.

While there has been quite a lull in general business conditions during the past several months, due to the natural readjustments following the war period, we believe that this liquidation has taken place and in many cases has been overdone, and from now on our people are in position to proceed on a "Business as Usual" basis.

We have never been impressed with the opinion of some that the business of the country was going to the "Everlastin Bow Wows." To those who have any such idea, we would respectfully refer them to the record of America's business achievements and its habit of surmounting any and all obstacles and always emerging triumphant.

With this feeling of America's Business Supremacy, our plans for 1921 have been based on "Good Business," believing that this period is now at hand, and we are sure that an inspection of our offerings through our representatives or in our show rooms, will fully demonstrate that we have provided well.

We also want to take this occasion to thank our thousands of customers and friends for their loyal support and co-operation throughout the past year and to assure them that our organization is thoroughly imbued with the knowledge that, that business is most favored which serves most.

FOOD MEN OPPOSE INCREASE IN TAXES

Taxes Too High Now, They Say, in Attacking Key's Proposal for Extra Levy—Kistner Named President.

Going on record as opposing any increase in city taxation, and electing Byron Kistner, president for the coming year, the annual meeting of the board of directors of the Atlanta Food Retail association was held Wednesday night at the chamber of commerce.

F. E. Kamper, treasurer of the organization, stated after the meeting that the action of the board of directors upon the tax situation, was taken as a result of agitation on the part of Mayor James L. Key to enact an emergency tax of one-half of one per cent, and it was the belief of the officials that

Just look up Pryor street from Auburn avenue and you will see where we are now. Then come on up.

The Tripod Paint Co.

Corner Pryor Place

the present rate of taxation is too high. Such an increase, he said, would not come at a more inopportune time on account of the period of readjustment in business.

In proportion with other classes," said Mr. Kamper, "and we feel that it would be very unwise to enact any such legislation."

Other officers elected by the food men are W. T. Atkins, first vice president; Morris Weilman, second president; L. J. Marbet, third vice president; R. C. Bergen, secretary, and F. E. Kamper, treasurer.

Also elected were arrangements made for a gathering of all members of the organization at an early date.

**U. S. Again Permits
Small Arms to Pass
Mexican Border**

Washington, December 29.—The state department has decided to permit the shipment of "small arms and small arms ammunition" into Mexico, it was disclosed today in an announcement by the American Railway association.

While no explanation was made of the government's action in relaxing the arms embargo against Mexico, the railroad's official through their national association, that they may accept shipments of small arms beginning January 1. Shot guns, rifles and revolvers are included in the category of small arms.

**BURNS PROVE FATAL
TO SAVANNAH NURSE**

Savannah, Ga., December 29.—(Special)—Mrs. Carrie Gallagher, chief surgical nurse at Savannah hospital, who was badly injured on Christmas Eve while playing Santa Claus at a Christmas celebration for the children in the hospital, died at an early hour this morning from the effects of her injuries. Her husband, lives in New York. Her father, Julius Hennecker, resides at Asheville, N. C. She was thirty years old.

COLONEL TO FIGHT BAKER IN COURTS

**Injunction to Be Asked
to Prevent Board Slating
Him for Discharge From
Army.**

Washington, December 29.—Development of a "chemical eye" through which rays of ordinarily invisible light could be seen and which the discoverer said would prove of great help in warfare, was explained tonight by Professor Robert W. Wood of Johns Hopkins university, in an address before the convention of the American Association for the Advancement of Science.

Professor Wood demonstrated a machine of his invention which produced ultra-violet rays invisible to the naked eye. His audience then viewed the rays through a wide-angle telescope device which caused them to become visible and to take on a phosphorescent appearance.

The regulars have been taken in motor lorries to Triest and orizola, where special hospitals

were organized. The number of men have been taken to these hospitals

is increasing hourly, and all agree

in declaring that the regulars find

themselves handicapped in their

fight against the legionaries. They

are armed only with rifles, while the

d'Annunzio troops use hand

grenades and machine guns, and be-

sides, have laid mines everywhere

so that at every step the govern-

ment soldiers are in danger of be-

ing blown up or killed by debris

and splinters. Two houses in Fl-

iume have already been destroyed by

mines.

The majority of the wounded were

struck by machine gun bullets or

splinters or hand grenades. They

say the regulars were ordered to

not fire unless absolutely obliged

to do so, while the legionaries have

been ordered to fire without limit

the heaviest possible losses upon their

assailants. While at the begin-

ning of the struggle the govern-

ment forces had a numerical su-

eriority, their progress is very

slow, as the legionaries are en-

trenched in buildings and have an

almost impregnable position. It is

believed that unless Captain d'Annunzio cap-

itulates, the occupation of the entire town of Flume will be accom-

plished only with the utmost diffi-

culty.

"Either airplanes, battleships or

land forces could use it for signal-

ing," he said, "also it could be used

on aviation fields for night landing

or airplanes. It would point out

the landing field but would be visi-

ble only to the planes equipped with

the detector."

"Its uses are virtually unlimited

in war."

from experience. It would appear that the lessons of the past six years should be enough to convince everybody of the danger of nations striding up and down the earth armed to the teeth. But no one nation can reduce armaments unless all do. Isn't it then time for an awakening among enlightened peoples to the end that the leading powers may reach some national agreement which would not only relieve the world of this terrible financial load, but which in itself would be long step toward the prevention of war?

"Our country is not an aggressive nation.

We want no territory, and we have

no designs on other people. If other

nations have the same attitude,

we have no objection to that.

Hoover also announced that the

total subscriptions to the relief fund

have now reached the sum of \$11,

210,000. This is about one-third of the

amount needed to maintain the

3,500,000 needy children of the

stricken countries.

James A. Flaherty, supreme knight

of the Knights of Columbus, Y. M. C.

A., and other organizations to the

needs of the children in Europe. The

Red Cross and other relief organiza-

tions have also contributed to the

fund.

General Pershing, D. Rockefeler, Jr., and numer-

ous leaders in diplomatic, financial

and business circles picked up his

own in plats and two spoons as he

entered the door. Red Cross rep-

resentatives of the daily ration served

the children of the devastated re-

gions of central Europe by Ameri-

cans and Americans.

Miss Stoney Weds Dr. McDougall At Lovely Home Ceremony

The wedding of Miss Josephine Stoney, daughter of Mrs. Christopher Louis Stoney, and the late Mr. Stoney, to Dr. James Calhoun McDougall, was an interesting event, taking place yesterday at 1 p.m. at the home of the bride, Mr. and Mrs. Charles Christopher McGehee, of East Fifth street, Rev. W. M. McGehee, rector of All Saints' church, performed the ceremony, which was witnessed by only the immediate relatives.

An improvised altar was arranged in the living room, which was formed of palms. In the center of the altar, there was a white satin cloth, graced with loops of silk and lax, and flanking either side were cathedral candelabras, holding burning tapers. In the music room, the reception had palm, red and green, poinsettias, holly and mistletoe, with palms and ferns formed the decorations.

Lovely Bride.

The bride was given in marriage by her uncle, Mr. and Mrs. C. G. Gehring, who was lovely in a smart tailored suit of dark blue devon with an opossum collar, and she a blouse of dark blue georgette, with a corsage of orchids and gold, and a hat of gray devon trimmed in ostrich feathers and gold.

Mr. R. H. McDougall, the mother of the bride, wore a black gown with a white sash, and a hat trimmed elaborately in chenille and gold.

Mrs. R. H. McDougall, the mother of the groom, wore a black gown with a white sash, and a hat trimmed elaborately in chenille and gold.

Miss Patty McGehee, a cousin of the bride, was handsomely gowned in brown chiffon velvet trimmed in fur.

Miss Robert McDougall, Jr., a sister of the groom, wore a gown of brown satin veiled in georgette crepe richly embroidered in self-tapestry.

The bride is a charming member of the young society set, having been conspicuously popular since her debutante year. She is a graduate of the Atlanta High School and Lucy Cobb Institute. During the war period she was an ardent Red Cross worker, serving especially in the canteen. Miss Stoney is one of the Stoney's best known families.

Dr. McDougall is the son of Mr. and Mrs. Robert McDougall, of New York, where he has been a member of the Zeta Chi fraternity. He served overseas in a medical unit.

Dr. McDougall and his bride left for a wedding trip to New York city, where they will remain a week. They will return to their home at 75 East Fifth street, in the Bellevue apartment.

Out-of-Town Guests.

Among the out-of-town guests were Dr. and Mrs. C. E. Choate, of Charlotte, N. C.; Mr. and Mrs. Robert McDougall, Jr., of Augusta; Miss Maude McDougall, of New York; Miss Mary Cross, of Montpelier, Vt.; Mr. and Mrs. John McLeod, of Hattiesburg, Miss.; and Dr. William McDougall, of New York city; Mr. and Mrs. Moore, of Charlotte, N. C., and Mrs. Emma Connelly, of Washington, D. C.

Cut Flowers.

A buffet breakfast followed the tables, overlaid with fine lace, and a silver basket filled

with polyness blossoms and bordered with ferns. Silver candlesticks held red upholstered paper doilies.

Mrs. Charles C. McGehee, the

hostess, wore a gown of pink taffeta and French flowers. Misses Weston was gowned in pink charmeuse.

Miss Mary McCarty wore a gown of blue taffeta with French trim.

Miss Bessie White wore a gown of lovely rose Georgette crepe.

Miss Margaret Wade wore pink silk with a lace border.

The guests were: Misses Margaret Wade, Mary Rhorer, Ruth Cannon, Mary McCarty, Eleanor McGehee, Mrs. George C. Clegg, Cullough, Bootsy Perkins, Nell Clayton, Marguerite Hodnett, Gladys Neal, Elizabeth Hyatt, Gertrude Hartman, Mrs. White, Luella Lee, Vera Kampel, Alice Gayle, Ruth Cannon, Lillian LeConte, Elizabeth Palmer, Ruth Stork, Lavinia Boyce, Virginia Carter, Walter Burnley, Margaret Sizer of Athens; Messers. James Watkins, Horace Powers, Haynes McVayden, Ruth McGehee, Bessie Birdie Gordon Hines, James Nevin, Wallace Kirkpatrick, Dick Goodheart, George White, Casper Johnson, Ruth Hartman, William McGehee, Walter Bedard, Charles Corrigan, Lamar Braswell, Lloyd Schenck, Donald Armstrong, H. R. Cannon, Lansing Thompson, Frank Herrett, Murray Hubbard and others.

Afterwards the usual delightful dance in honor of the visiting team assembled a large company.

Miss Walcott Honored.

Miss Anne Shirley Walcott was honored guest at a party last evening by her parents, Mr. and Mrs. Charles W. Walcott, at their home on Euclid avenue.

Those invited were Margaret Tyburn, Yoela Stitt, Austin Kelly, Carolyn Bonney, Theresa Wade Atkinson, Allie Walton Stephens, Martha Heath, Anna Franklin Shipp, Ernestine Hurt, Leah Smith, Ruth Rogers, William Weathers, Calhoun Heath, Mrs. W. Sutton, Carol Wilson, Dorothy, Mrs. Elsie Clegg, Georgia Ober, Harmon Sledd, and Syd Knight Hardie.

Club D'Arab.

An interesting social event of the evening was a dancing party given by the Club D'Arab at the Decatur Athletic club on Monday evening, January 3. The music will be furnished by Watkin's orchestra, and refreshments will be served by the club members and their friends from 9 until 12 o'clock.

Mr. and Mrs. Choate Give Dance.

Mr. and Mrs. C. E. Choate entertained at a pretty dancing party Tuesday evening at their home on Prado, in compliment to their young daughter, Miss Anne Choate.

The house was artistically decorated in pink, with a number of mistletoe English roses, which were festooned over doors and windows, in music room, library, dining room, tables and mantelpiece.

The punch table was very artistic in its decoration of winter fruits, holding a variety of dried fruits, mistletoe, English roses, and pinecones.

Mrs. Choate was assisted in entertaining by her mother, Mrs. Joseph Dodson, of Maysville, Ky., and Mr. and Mrs. Jerry Plummer and Mrs. Dr. William McDougall, of New York city; Mr. and Mrs. Moore, of Charlotte, N. C., and Mrs. Emma Connelly, of Washington, D. C.

Out-of-Town Guests.

Among the out-of-town guests were Dr. and Mrs. C. E. Choate, of Charlotte, N. C.; Mr. and Mrs. Robert McDougall, Jr., of Augusta; Miss Maude McDougall, of New York; Miss Mary Cross, of Montpelier, Vt.; Mr. and Mrs. John McLeod, of Hattiesburg, Miss.; and Dr. William McDougall, of New York city.

There were twenty-six guests, and they were seated in dainty luncheons after the game. The decorations were the Christmas foliage and flowers.

Mrs. Choate wore a handsome black velvet gown. After this party this afternoon will again assemble twenty guests or more.

Basket-Dance.

Miss Sara Orme was sponsor for the Athletic club and Miss Jennie Johnson, for Baylor Institute, of the girls, in the basket-dance game last night at the Athletic club.

Afterwards the usual delightful dance in honor of the visiting team assembled a large company.

Mr. and Mrs. Van Leer.

Mr. and Mrs. Edward S. Enney will entertain at dinner tonight at the second floor of two bridge parties, the first an enjoyable event of yesterday.

There were twenty-six guests, and they were seated in dainty luncheons after the game. The decorations were the Christmas foliage and flowers.

Mrs. Champion wore a handsome black velvet gown. After this party this afternoon will again assemble twenty guests or more.

Mr. Howell, Host.

Mr. Albert Howell, president of the members of the Zexan club of the Boys' High school, on the occasion assembling two hundred and twenty members of the club.

A buffet supper was served, and afterward the party enjoyed an evening of dancing.

Mr. Howell, Mrs. Clark Howell, and Mr. Clark Howell, on Wesley road.

Dancing Party For Mr. Hirsch.

One of the most interesting dances of the holiday season was the dancing party given last evening by Mr. and Mrs. J. M. Hirsch in honor of their son, Mr. Samuel Miller, of the Atlanta Club, on Peachtree road.

A number of the college students were invited for this occasion, and throughout the dancing hours and pastime, the young people in silver vases and French baskets adorned the tables and mantels.

Mrs. Hirsch received her guests wearing a lovely gown of black tulip embroidery in jet.

To Miss Daniel.

A number of entertainments are planned for next week, when Mrs. Daniel, Mrs. J. M. Daniel, of Atlanta, is the guest of Mrs. Mae McAlpin. Among those giving parties will be Miss Rosina Asmus, Mrs. R. C. Turner, Mrs. J. Putnam, Mrs. Robert L. Kilker.

THE CANDY BOX

Brazilian Caramels

INGREDIENTS

1 cupful of brown sugar
1 cupful of light colored molasses.

1 cupful of cream

1 teaspoonful of vanilla

1 cupful of chopped Brazilian nuts.

FORMULA

Boil the sugar, molasses and cream until it forms a hard ball when tested in cold water. Remove from the fire, add the vanilla and nuts and pour into a buttered pan. Cut when cool.

MEETINGS

The Men's club of the Liberal Christian church will meet this evening at the home of Mr. and Mrs. W. L. Blatt. Rev. L. O. Bricker will speak.

Mrs. Moore Given Surprise Party at Mrs. Peel's Home

Mrs. Wilmer L. Moore was honored guest at a party last evening given by her parents, Mr. and Mrs. Charles W. Walcott, at their home on Euclid avenue.

Those invited were Margaret Tyburn, Yoela Stitt, Austin Kelly, Carolyn Bonney, Theresa Wade Atkinson, Allie Walton Stephens, Martha Heath, Anna Franklin Shipp, Ernestine Hurt, Leah Smith, Ruth Rogers, William Weathers, Calhoun Heath, Mrs. W. Sutton, Carol Wilson, Dorothy, Mrs. Elsie Clegg, Georgia Ober, Harmon Sledd, and Syd Knight Hardie.

Mrs. Peel was elegantly gowned in black velvet.

Among those present were Mrs. Robert C. Ailes, Mrs. Clark Howell, Mr. and Mrs. William H. Kiser, Mrs. Eugene Black, Mrs. Robert F. Maddek, Mrs. William D. Ellis, Jr., Mrs. Robert Foreman, Mrs. Phyllis Calhoun, Mrs. Frank Inman, Mrs. Maude Marks, Mrs. Ethel Palmer, Mrs. Helen Inniss, Mrs. Marion Prout, Arkwright, Mrs. Morris Brandon, Mrs. John Grant, Mrs. W. P. Hill, Mrs. A. J. Orme, Mrs. Marion Jackson and Mrs. Shepherd Bryan.

from an artistically appointed table, the centerpiece of which was a silver compote filled with richly colored winter fruits. Silver candlesticks held red unshaded candles.

HARNESS ALL OF IT.

We present elsewhere upon this page an interesting discussion of hydro-electric development conditions by H. M. Atkinson, chairman of the board of directors of the Georgia Railway and Power company.

"With the present standards of train make-up, classification and terminal handling, electrification will double the capacity of any railroad.

With the better equipment, together with the evolution of improved methods of operation contingent on electric power, this capacity should be doubled again, thus securing four times the present capacity.

This should certainly be accepted as a vision of the future, and why not our aim? Unless some broad and consistent program is embraced, the situation, which is serious indeed today, may well be calamitous tomorrow."

He declared further that "without the limitation in train speed commonly accepted as a handicap to operation of tonnage trains," no man "can say what the limit to train load will be with electric power."

"In fact," he added, "the character of railroad operation which may be secured with electric power has not yet been visualized," and he closed with the significant statement, illustrative of another phase of the wonderful immediate advantages of electricity over coal in the handling of railroad rolling stock:

"No discussion of electric railway economies would be complete without comment upon the increased value of real estate brought about by terminal electrification. Not

only is neighboring real estate bonafide thereby, but the 'air rights' over the electrified tracks may become as valuable as to largely pay the cost of the change from steam.

With the work half-finished the Grand Central Terminal district is already a remarkable example of the indirect benefits derived from electrification."

All of this has to do only with the advantages to be derived by the application of our now unused water power to transportation—by substituting hydro-electric energy

for coal; railroad operation is only one of the many lines of industry and business to which hydro-electricity could easily be applied, and with incalculable benefit to the public.

All the wear and tear on and cost for the rolling stock and railroad trackage, the labor of handling the millions of tons of coal, etc., all could be obviated—the same ultimate effect could be produced by the simple process of turning of an electric switch—but for the fact that we permit our water courses to tumble down out of the mountains and sing their idle way to the sea, unused, instead of putting them to the work that we rely upon coal to do.

Mr. Atkinson points to what his company has done in the development of the Tallulah, Tugalo and the upper Chattahoochee rivers; all of which is fine, and something he is proud of.

But the point we make is that all of our potential water power producing streams should be put in readiness to be used; all of our unused water power should be harnessed!

A recent Associated Press dispatch from Washington states that 129 applications, originating in twenty-seven states, Alaska and the District of Columbia, had, up to December 18, been filed with the federal power commission, calling for the development of a total of 12,000,000 horse power of hydro-electric energy.

The commission announced that the contemplated plans as shown in the applications, will advance water power development in the United States by more than 40 percent, and will involve an investment of \$1,200,000,000.

This portends a remarkable advancement in hydro-electric development in this country, given encouragement by recent water power legislation by congress; and in the south should share in proportion commensurate with its importance, and its available dormant water resources.

Every ton of coal that is consumed and every pound of merchandise that is bought in Georgia represents a part of that tribute in the form of cost that would be unnecessary were we utilizing the potential heat and power units of energy that are permitted year after year to run to waste by our very doors and into the sea.

According to a report of the interstate commerce commission, made public under date of December 28, during the first nine months of the current year, our railroads alone consumed a total of 8,752,821 tons of coal, the total cost of which to the railroads—and, of course, indirectly to the people in the form of transportation rates—is \$326,923,642!

Think of what that means, not only in the value of the coal at the mine, the cost of digging and transporting it, etc., but in the rolling stock used in hauling it from the mine to the point of distribution; in the matter of traffic congestion, and consequent delays in the transportation of necessary merchandise, all of which naturally adds to the cost of goods purchased by the consumer!

Think of what it means in the

price of coal used for domestic and industrial consumption!

And yet, enough water power is running to waste through our idle rivers to electrify a large part of our railroad mileage and thus to obviate the necessity of burning much of the coal now being used in passenger and freight transportation!

Particularly does this pertain to the south, and more particularly still to the southeast, from whose Blue Ridge watershed there is enough water power that could be made available to run almost, if not every railroad train, turn every spindle, and to light and heat every business house, industrial establishment and home from the Atlantic ocean to the Mississippi river and from the Potomac to the Gulf of Mexico!

As to the feasibility and practicability, and the possible economic saving in the electrification of our railroads alone, not to speak of industry in general, F. H. Shepard, director of heavy traction, Westinghouse Electric and Manufacturing company, said in a paper read at a recent joint meeting of the railroad section of the American Society of Mechanical Engineers and the American Institute of Electrical Engineers, that—

"With the present standards of train make-up, classification and terminal handling, electrification will double the capacity of any railroad. With the better equipment we can expect in the future, together with the evolution of improved methods of operation contingent on electric power, this capacity should be doubled again, thus securing four times the present capacity. This should certainly be accepted as a vision of the future, and why not our aim? Unless some broad and consistent program is embraced, the situation, which is serious indeed today, may well be calamitous tomorrow."

He declared further that "without the limitation in train speed commonly accepted as a handicap to operation of tonnage trains," no man "can say what the limit to train load will be with electric power."

"In fact," he added, "the character of railroad operation which may be secured with electric power has not yet been visualized," and he closed with the significant statement, illustrative of another phase of the wonderful immediate advantages of electricity over coal in the handling of railroad rolling stock:

"No discussion of electric railway economies would be complete without comment upon the increased value of real estate brought about by terminal electrification. Not

HEALTH TALKS

By WILLIAM BRADY, M. D.

NO. 18 IS NOT YOUR LIVER.

Almanacs are esteemed nowadays only as relias or curios, but that most plausible suggestion of the almanacologist, namely, that a salivary complexion indicates liver complaint, is just about as current as

that. Jaundice is one of the commonest symptoms of gallstone disease.

The truth is that jaundice is not in only one case out of every eight the result of gallstones.

Jaundice is a yellowish tint of the skin, the mucous membranes with the lining of the lips, one of the earliest symptoms of gallstone disease.

The truth is that jaundice is not in only one case out of every eight the result of gallstones.

OH, MAN!

By Briggs

Baylor University Swamped by A.A.C. In Holiday Set-to

Evidencing their marked superiority in every department of play, the Atlanta Athletic club basketball performance swamped that of the local representatives of Baylor college, Houston, Texas, under a landslide of 65 to 21, the visitors failing to score anything starting in any one direction.

The Baylor quintet is no doubt highly appreciative of the fact that in the first half, the club's second team, commonly termed the scrubs, held the floor in the crucial period of the game, the ball-shooting attempt of the Texans not being nearly so decided as that of their big brothers. During the period, the visitors aggregated fourteen of their twenty-one points, while the upstart scrubs were piling up but eight counts.

"Just what the score, would have been if the locals regulars had gone the entire road, but as far as the interest of the spectators was concerned, the general public was very well pleased at the injection of the Baylor element into the affair from that moment on, ten to one much less one-sided aspect."

Result is Apparent.

In a very few moments after the opening whistle it was evident to practically everybody that the youngsters from the well-known hill and woolly west were in for a short haul with all the customary trimmings of turpitude. The club's components were also no doubt cognizant of this fact, but their estimate a fraction of a second in putting forth everything they had to stop the onslaught of the locals. The visitors' guard was a nondescript running game, and as usual seemed to be all over the floor at once. He was a great thorn in the side of the Texans, who showed three goals from the field besides his great work on the defense.

HARD SCHEDULE GIVEN
WEST VIRGINIA FIVE

W. Va., December 29.—(Spe-

cial)—The West Virginia University basketball schedule for the 1921 season was announced here today by Director H. A. Stansbury and follows in a general way the program of former years. The only feature at variance with the former program is that the eastern trip which is always a feature is moved forward one month; more of the so-called "Tri-State" teams are to visit; two important Virginia fives, Washington and Virginia Poly Institute, pay their first visit to Morgantown, and no big eastern fives were scheduled for the holiday period in Morgantown.

schedule.

January 5—Davis-Elkinton College at Morgantown.

January 8—Carnegie Tech at Mor-

gantown.

January 11—Fairmont Y. M. C. A.

January 12—Open at Morgantown.

January 17—University of Pitts-

burgh.

January 19—Penn State College at State College, Pa.

January 21—Cornell University at Ithaca, N. Y.

January 22—Syracuse University, N. Y.

January 22—Rochester Centrals at Rochester, N. Y.

January 23—Bethany College at Morgantown.

January 8—Westminster College at Morgantown.

February 10—Virginia Poly In-

situte at Morgantown.

February 12—Grove City College at Morgantown.

February 18—Washington and Jefferson College at Washington, Pennsylvania.

February 19—Geneva College at Beaver Falls, Pa.

February 22—Muskingum College at Zanesville.

February 25—Washington and Lee University at Morgantown.

March 5—Washington and Jefferson College at Morgantown.

March 12—University of Pittsburg-

at Morgantown.

JUDGE IS SLATED FOR
PLACE WITH INDIANS

Washington, December 29.—(Spe-

cial)—Joe Judge, last season first

baseman for the Washington Ameri-

cans, may join the Indians next season. It is rumored Judge has had several verbal clashes with Clarke Griffith over the salary question, and he has been made to let out that Griffith would like to land Burns or John- ston, of the Cleveland Indians.

WIVES TO EXPOSE SOX PLOT

BY JAMES L. KUGALEN,
United News Staff Correspondent.

Chicago, December 29.—As black as the eight indicted White Sox ball players may appear to be in the eyes of the public, the forthcoming trial will demonstrate that at heart they are not as black as they are painted. Mrs. Anna Williams, wife of the once famous "Lefty" Williams, declared Wednesday in the first interview she has granted since the collapse of the Westmoreland and with 14, and Morrison with 10.

Rufus Bass, the scintillating forward of the locals, accounted for the greatest number of points for the club, sending up 10 points.

For the visitors, the record of the 1919 world series.

While Mrs. Williams did not say so many words, she estimated that some of them in the plot were easily led dupes.

Mrs. Williams, when interviewed in her apartment in Grand Boulevard, said her husband was downtown to engage the services of a criminal lawyer. "The lawyer we have had here," she explained, "is not a criminal lawyer."

Graves Back in Game.

Johnnie Graves, an old captain of the club, quietly made his appearance in the locker room and was immediately placed in the place of Oliver shortly after the start of the game. He was the star of the show, and his intrepidity will hold off for many more trials.

For the visitors, the record of the 1919 world series.

White possessed three excellent boxing attributes. He had youth, he had size, he had strength. But he had one other quality which he was entirely lacking in those other pugilistic necessities, speed, skill and courage. In the last of the three pugilistic necessities, speed and cool-headedness, Bailey is young and will get bigger. He is carrying along gradually, and his master, Mr. Miller, is not afraid to let him go.

White has displayed consistent improvement. His hitting has improved in each, and though he is never flashy, in his style he is always dangerous and cool-headed. Bailey is young and will get bigger. He is carrying along gradually, and his master, Mr. Miller, is not afraid to let him go.

Wall Street Trading Shows Better Feeling

BY R. L. BARNUM

New York, December 29.—There was a better feeling in Wall street today than at any time since violent liquidation in the security and commodity was resumed early this month. Atlantic Gulf which closed at 93% opened at 91 and then dropped to 89 while Crucible which closed at 71% was declining to 70. But this weakness and one or two more soft spots in the industrial list was ignored by the market as a whole largely because of the strength displayed by the seasoned dividend-paying railroad shares such as Atchison, Lehigh, Valley, Norfolk & Western, New York Central, Great Northern, Northern Pacific, Southern Pacific, Reading. These stocks were up from 1 to 6 points or more for the day and from 3 to 13 points from the low prices made this month.

Commission houses representing the public report that outside buying of seasoned dividend-paying shares continues. Whatever happens to the industrials, investors seem to have concluded, the seasoned dividend rails are safe because of the new transportation law and because of their past record. This faith is justified. In years when rates were being reduced instead of increased, when legislation was harmful instead of helpful, when times were lean instead of fat, the railroads kept right on paying dividends. To go back only a few years, holders of the stocks named kept on receiving dividends through the trade reaction of 1903, and 1908 and 1914. And that was long before there was any rule laid down by congress for established rates that would bring in fair and reasonable income.

Outside Liquidation Caused Break.

The break in Crucible was due to continued liquidation by insiders who have been in distress for weeks and weeks past. Today, however, it was learned that the Guaranty Trust company had arranged a rescue party to take over this stock and there was a sudden recovery. It was also learned that the rescue party conducted by Kuhn, Loeb & Co., a few days ago in Replige paid \$28 a share for all the stock which brokers wanted to part with at that price.

A number of dividend changes were announced today. American Chicle passed its quarterly \$1; United Finishing passed its quarterly 14%; Carbon Steel passed its quarterly \$2; Goodyear Tire & Rubber paid its quarterly 13% on preferred. But on the other hand Royal Dutch declared an extra 15 per cent and Columbia Gas and Electric paid an extra \$1.

Northern Pacific which has been advancing steadily since 72 and a fraction was touched some ten days ago was one of the leaders of the rally today on the news that Howard Elliott, chairman of the board, was starting for St. Paul tonight to confer with a conference with President Donnelly regarding the development of the company's Montana oil lands. Wall street would not be surprised if Northern Pacific followed the example of Southern Pacific and formed a separate oil company to develop its oil properties.

Cotton Drop Discussed.

Today's decline in cotton to the lowest price since 1915, was generally attributed to conditions abroad. It is this connection it was pointed out that Japan was over-supplied and that similar conditions existed in England, on the continent and in India.

In reviewing conditions in the iron and steel trade during the last week of the year, the Iron Age, in today's issue, sees no prospects of a buying spurt early in 1921. Attention is again called, however, to the unusual operations of the United States Steel corporation. While the independents are running at only from 25 to 55 per cent of capacity the plants of the steel corporation continue to operate at 95 per cent capacity. This suggests to Wall street that the steel corporation is working hard to fill the orders now on its books at comparatively high prices and also to get some supplies on hand against the time of wage reductions. A large stock of supplies with few new orders coming in would go far in convincing labor that wages should come down.

Spot copper sold today at a new low record for the year of 124¢. The price was 13¢ for delivery during the first quarter of 1913.

The large oversupply of call money, after the close of business each day, will be reflected in the market for time money in the near future.

New Haven Suit Is Settled.

As a result of the decision just handed down by Judge Hough, in the federal court to the effect that the cause of the action was doubtful the directors of the New Haven have settled the \$150,000,000 damage suit brought by the minority shareholders for \$2,500,000. But, while this long-drawn-out suit is thus settled, the indictment brought by the Interstate Commerce Commission, after its investigation of the New Haven, under orders from congress, stands. In that investigation it was disclosed, among other things, that there had been unlawful diversion of corporate funds to political organizations; that retainers to lawyers had been scattered throughout five states, not for things done, but to prevent things from being done; that there had been an extensive use of a paid lobby; that an attempt had been made to control the press by subsidized reporters and buying \$400,000 securities of New England papers; that within ten years New Haven's capitalization had been increased from \$93,000,000 to \$147,000,000, not including accumulation of \$40,000,000 floating debt; that \$204,000 of this increase had been spent by the company "for operations outside of its railroad sphere."

Then, the commission adds: "It is inconceivable that these wrongs could have gone on without interference if the members of the board of directors had been true to the faith they owed the stockholders. The directors actively or passively acquiesced in the efforts of the Mellon-Morgan-Rockefeller regime. If these directors who were faithful to their stewardship were held responsible in the courts and at the bar of public opinion for their failure to do those things they should have done, the lesson to directors who do not direct would be very salutary. When these directors were negligent and serious losses resulted therefrom they were guilty of a grave dereliction of duty and a breach of trust that was morally wrong and criminal in its fruits."

Some Good Results.

Something good at least has grown out of the railroad scandals that occurred in New Haven, Alton, Rock Island. Today the Chicago and Eastern Illinois, which was a highly prosperous company until it became involved in the Rock Island mess, is in financial reorganization. This is the first bankrupt railroad to thus submit its reorganization plans under the new transportation act. It is now up to the commission with its new powers to see that there is a proper reorganization. Hence, some of our railway organizations have become as scandalous as the original acts which brought about receivership. In the future the commission must see to it that capitalization mistakes such as occurred in New Haven are corrected in reorganization, or else it must itself confess failure. Through the new law which places in the hands of the commission supervision of the issuance of the new securities the commission has power to correct past as well as future mistakes in railway financing.

Sugar.

New York, December 29.—The raw sugar market was firm and prices were unchanged at 4% cents for Cubas, east and freight, equal to 8.50 cents per pound and the only sales reported were 13,000 bags of Cubas prompt, alighted at 8.50 cents per pound, or 4.50 cents for centrifugal. Local refiners were in a market of their own, the offerings were light with bidders asking higher prices.

The demand for refined sugar was light and the list prices were unchanged at 7.00 to 8 cents for fine granulated, it is said that most refiners are accepting of the new market figures.

Trading in sugar, futures was small, but the underscore was firm, a belief that the Cuban loan would go through early in the new year. Price, 6.80 to 6.85 cents per pound, alighted on covering and 15 to 17 cents per pound.

STATEMENT of the condition of the

CITY SAVINGS BANK

Rally Follows Drop To New Cotton Levels

January Notices Issued So Far Have Been Promptly Stopped. Threat of Harbor Strike Causes Feeling of Uncertainty.

ted delivery of much lower grades than the present ones, and was under American stand and classification, so that it was not easy. Now we have a very high-grade contract and the bales delivered are under cover of a new grade, classed as follows: It takes a new style of the old standard which is standard cotton to the lowest grade, and that is the lowest grade that can be delivered. When considering this and the difference in price off, the contract price here for long middling is the cheapness of cotton in this market can be appreciated. We recommend the purchase of cotton.

ORVIS BROS. & CO.

New Orleans, La., December 29.—(Special)—While it is confidently expected that trade and financial conditions will improve by next spring, and while encouragement is likely to come of the resumption by mills, after the holidays, of the production in bales, the participants in middlemen will be opening up the market. The best way to look for is a gradual improvement in the confidence which is established after the new year comes with greater interest and continue to improve as the result of the return of normal conditions.

H. & B. BEER.

Market News

GUARANTY TRUST HEAD DIES ON WEDNESDAY

New York, December 29.—Alexander J. Hemphill, chairman of the board of directors of the Guaranty Trust company, died at his home here today of heart disease after a year of failing health.

Mr. Hemphill, who was born in Philadelphia, 64 years ago, was identified with public service corporations throughout the country and with nationwide relief and charitable bodies. Among the organizations which he served were the Norfolk and Western railway, Adams Express company, St. Louis Waterworks, the Georgia-Central Chemical company, and many smaller concerns, including railroads, banks and insurance companies.

During the war Mr. Hemphill served as treasurer for the committee for relief in Belgium and was a director of various other bodies serving the allies in relief work.

N. O. EXCHANGE CLOSES ON FRIDAY

New Orleans, December 29.—Directors of the New Orleans cotton exchange decided today to close the market on Friday instead of Saturday. Decision followed a petition of a majority of the members. The exchange also will be closed January 8, anniversary of the battle of New Orleans.

Metals.

New York, December 29.—Copper, electrotype, spot, nearby and first quarter, 12% to 13%; iron, steady and unchanged; firm; spot, 33.50¢ to 34.00¢; futures, 25.00¢; tin, 45¢ to 46¢; lead, steady; zinc, 45¢ to 47¢; zinc, quiet; East St. Louis, steady; spot, 56¢ to 57¢.

Dry Goods.

New York, December 29.—Cotton goods in demand and continued well in staple prices and per cent. Trade reports showed improvement. Yarns were dull. Stocks of raw silk were reported smaller. Improvement was noted in silkthrowing plants. Wool goods and burlaps quiet.

Cotton Seed Oil.

New York, December 29.—Easter crude oil continued upturning trade conditions were responsible for higher prices in cottonseed oil. The market, though generally followed, however, through covering actions, and in other markets the better showing in cottonseed oil. Cottonseed oil prices were 1 point lower to 9 net higher. Sales, 1,240 barrels; tenders on January 1, 1,200 barrels; 200¢ per barrel; 5.50¢ per bushel; prime summer yellow spot closed at 75¢; January, 7.5¢; March, 8.0¢; May, 8.7¢.

Livestock.

Louisville, Ky., December 29.—Cattle, receipts, 100, steady; heavy steers, 825¢ to 830¢; light steers, 60¢ to 85¢; heifers, 550¢ to 800¢; calves, 50¢ to 75¢; feeders, 300¢ to 550¢; stockers, 2,000¢ to 2,200¢.

Provisions.

Chicago, December 29.—Pork, nominal; 19.75¢ to 20.75¢.

DIVIDENDS ARE PAID

WILLINGHAM CREDITORS

Macon, Ga., December 29.—(Special).—A 5 per cent dividend amounting to \$85,662.24 was today paid to forty-seven creditors of the R. F. Willingham warehouse on an order by Referee J. N. Talley. This is the first dividend paid to any of the creditors of either the Willingham warehouse or the R. F. Willingham corporation or the personal creditors of the late James Willingham.

Now the greatest fun that Cullen Landis, who plays Stardard, the boy hero, has is to teach the oysters to talk. In the mouth of the oyster, he says, "I can't add another interest to the presentation of the picture, which will be shown at the Keith's, in the "Midnight Frolic." It is the story of a man who determines to shield his daughter from death but fails to do so, so he goes to court and proves that he is her father. His relation to her is misunderstood, he is about to sacrifice the fruits of his life when he finds that the girl loves him and to give the girl leaves to love him and to forgive the girl makes a story that fairly sparkles with interest from start to finish.

Fans of the silent screen and picture fans are the charm and appeal of Mr. Carey's new leading lady, Mignon Holden, the girl who has made the most beautiful settings and gorgeous backdrops and a new and attractive juvenile in the person of Fred Astaire, who is excellent in "Montana." When he went on the stage he wrote a play, "Montana," and then he always had a real red parties for several seasons and when with Griffith, in the early days of motion pictures, there were no more oysters on the menu than were known to features of the time. Since he has been starring he has provided himself with several vehicles.

"It's a Great Life."

(At the Rialto.)—The complete change of program is effective today, and the new attraction being Harry Carey in the western drama, "Heart's Up." The fact that the story comes from the pen of Harry Carey and adds him an on-the-spot popularity will add additional interest to the presentation of the picture, which will be shown at the Keith's, in the "Midnight Frolic."

Patrons will appreciate the picture fans are the charm and appeal of Mr. Carey's new leading lady, Mignon Holden, the girl who has made the most beau-

Agree on Wage Cut.

Savannah, Ga., December 29.—(Special).—At a meeting of the master builders unit of the Savannah Building and Exciting Laborers, general cutting of wages of the leading crafts of the building industry was agreed upon. In the readjustment of wages, the men will receive 50 cents an hour against the old wage price of 75 to 90 cents; brick layers, 87.2 cents, instead of the former wage of 90 to \$1 an hour.

(Coming to Atlanta Theater)

The play that the critics call "the world's best" is "The Passing Show."

(At the Strand)

With all the pomp and magnificence of an Indian winter, the huge, glittering New York Winter Garden, the most famous theater in the history of the American stage, is now setting attendance records at the Atlanta theater this week. There will be performances every night and a special matinee Saturday.

This Winter Garden entertainment is a delectable frolic in two acts and filled with the liveliest sort of scenes, rarely before in the history of the American stage have there been so much varied entertainment crowded into a single show.

It is a two-reel comedy, entitled "Rubes and Romance," and the current edition of the Fox News Weekly will also be shown.

TO PLAN EXCHANGE OF BRITISH DEBT

Treasury Official Coming Here to Discuss Turning Demand Notes Into Long-Time Obligations.

Washington, December 29.—Discussions between American and British treasury officials regarding the exchange into long-time obligations of the demand notes of the British government held by the United States amounting to \$4,196,600 will be renewed upon the arrival in this country soon of a representative of the British treasury, Secretary Houston announced today.

The secretary of the treasury is authorized under the liberty bond act to effect the exchange at the rate of interest not less than that borne by the demand instrument, it was said.

Discussions with the British representative, Secretary Houston said, will be confined to the exchange of the obligations of that government as it is the policy of this country to deal separately with each of the allied nations to whom loans have been made.

Discussions carried on in Europe with other nations indebted to the United States, have not reached stage so advanced as to permit the British government. The British negotiations, he said, had progressed to the point of a general understand-

ing, but the details remain to be worked out and will be taken up with the British treasury officials in Washington.

Interest rates and the forms of the various long-time bonds, which will be used, have not yet been decided, the secretary intimated.

"The obligations should contain suitable provision for their conversion or for their payment, at option of the obligator, in lieu of such conversion," Secretary Houston said. "To prevent or stop gold shipments to the United States they should contain any agreement by the debtor government to offer demand drafts payable in its currency at a figure to be fixed, substantially the gold export point, and to apply the proceeds of such certificates and then to principal, current interest to be adjusted accordingly. Sinking fund payments should be provided to be made in gold coin of the United States or in the currency of the debtor government at the place of exchange, if the holder so requests."

Actual exchange of the securities will not be made at the coming conference, Secretary Houston added, adding that the documents of the agreement would probably be drawn up in presentation to each of the contracting governments before the transfer of the securities is made.

Georgia Jersey Herd To Enter Competition For Tourists' Favor

American, Ga., December 29.—(Special) Sam A. McGarragh, prominent Sumter county stockman, will transport his entire herd of Jersey cattle from Americus to Palm Beach, Fla., January 1, 1921, to there furnish dairy products for tourist trade, after which he plans to return to Americus. He has carefully selected the animals involved, and says the venture will be a profitable one for him.

McGarragh has raised a quantity of cotton, but this year he has abandoned the staple altogether, having already planted his entire open acreage in oats, wheat, rye and other small grain. Uncertain regarding the market for cotton next fall, together with the fact that cotton is recognized as an expensive crop, induced McGarragh to decide upon his temporary migration to the Florida winter resort.

MANUFACTURERS' ASSN. FORMED IN SAVANNAH

Savannah, Ga., December 29.—(Special)—The Chatham County Manufacturers Association, formed last night, is an organization representing the industries of the city and vicinity for furthering the interest of manufacturers in the exchange of information. The extension of the Chatham county markets and general arousing of interest in the industrial activities pertaining to the port city are among the objects of the organization.

Robert S. Cone, president of the Reliance Fertilizer company, is president of the new organization; I. H. Petty, president of the Savannah Packing Company, is vice-president, and Charles D. Russell is secretary. The treasurer will be elected by the board of directors, which includes J. W. Clegg, president; H. C. Foss, receiver Savannah Electric company; W. S. Pardner, secretary and treasurer Savannah Supply and Storage company; W. E. Sargent, president of Pierpont Manufacturing company; A. D. Strohbar, president Southern Fertilizer and Chemical company; George F. Tenen, vice-president Southern Cotton Oil company.

"There was a second agreement between Great Britain and Japan in August, 1905, which dealt with the Far East, but neither it nor the Anglo-Japanese alliance, formed in 1902, was in any way directed against the United States. In fact, the United States was then not very actively interested in Far Eastern politics.

"When war broke out between Russia and Japan early in 1904, France, who was allied with Russia, and England, who was allied with Japan, 'contracted out' of the war. Their agreement not to fight each other in the Russo-Japanese quarrel was one of the things that led to the Anglo-French entente of April, 1904, which, in its turn, helped to save the world from German domination.

"There was a second agreement between Great Britain and Japan in July, 1911, and extended for a term of ten years, a clause was inserted, stipulating that nothing in the agreement should entail upon either contracting party an obligation to go to war against any power with whom a treaty of general arbitration had been concluded, and was in force. This was the first reference to the United States in the Anglo-Japanese alliance and it was a friendly reference.

Treaty Completed.

"President Taft had concluded with Great Britain a treaty of general arbitration a month earlier. It is an important point that this revision and renewal of the Anglo-Japanese treaty were carried out only after the fullest consultation in London with the responsible ministers of the Dominions, who gave their unreserved support.

"Had the Anglo-American treaty of arbitration ever been ratified, Great Britain thus would have been ruled out of the possibility of siding with Japan in any conflict between Japan and the United States. What happened, in reality, was that the United States, through the Senate, refused to ratify the treaty of arbitration—in March, 1912.

"Consequently, if there is any suspicion among Americans as to the obligations of Great Britain, those suspicious cannot be with the Anglo-American alliance.

"Great Britain, who is as ready now, as she has always been, to conclude and ratify a treaty of general arbitration with the United States.

"But in default of an arbitration treaty, there is the peace commission, which is signed at the Peace Conference at Versailles.

"In 1919, the Peace Commission, which is signed at the Peace Conference at Versailles, was favorably received by the weather bureau's weekly bulletin today announced wet weather in the northern portion of the belt and temperatures too low for outdoor work in the northwestern portion. Conditions in the field in Texas are still the same.

"The week averaged cold in most parts of the country. Some damage was done to citrus trees in the south and to tender truck in north-central Florida. Very little, if any, injury resulted to hardy truck in the north, while unsound trees and lettuce and cabbage were favorably received by the weather in Florida.

"The citrus crop in the southern Florida truck is in poor condition owing to frost damage of the preceding week. Grinding of sugar cane is still in progress in the extreme lower Mississippi valley.

"Small quantities of citrus fruit are being shipped from Florida. The Satsuma orange harvest has been nearly completed in Alabama.

"But in default of an arbitration treaty, there is the peace commission, which is signed at the Peace Conference at Versailles.

"In 1919, the Peace Commission, which is signed at the Peace Conference at Versailles, was favorably received by the weather bureau's weekly bulletin today announced wet weather in the northern portion of the belt and temperatures too low for outdoor work in the northwestern portion.
